

## Annual Road Maintenance Program

Township of Hopewell | Mercer County, NJ

Van Cleef was retained to provide engineering plans and bid specifications for the Township of Hopewell's annual road maintenance program. The work included curb replacement, pavement milling, distressed pavement replacement, full-depth pavement replacement, repair of storm sewer inlets, replacement of inlet heads and grates, installation of sump pump collection laterals, striping and restoration.

The initial phase of the project included public outreach and meetings with the public to review the project and address community concerns regarding roadways.
